Do Union men feel like elevating a man, into the position of their representative in the Legislature. Do they feel like trading off for a home robel, a man like Edward Smith, who, say whatever else you may about him, has been true as steel to his country, and whose loyalty now no man has the hardihood to question. Mr. Applegate's record is no elearer on the one side than is that of Mr. Smith on the other. Mr. Smith is, in every other respect, his equal; in ability and experience, his superior.

So far as numbers are concerned we have not seen any thing equal to it for years in that vil At least four hundred people vere out to hear Mr. Bingham, and the large majority of them were voters. He made them a speech that we feel sure will do good and that like bread thrown upon the waters will bring a profitable return in due season. We were greatly gratified to see the Union men of Liberty and Richland townships thoroughly aroused and in earnest. And still more gratified were we to hear say that those two townships would largely improve upon their vote of last spring. We have full faith that such will be the case. The country wil do well in this contest. Speech of Gen. Geary to the "Boys in Blue," at Harrisburg. PHILADELPHIA, Oct. 10. Forney's Press publishes a speech

made by Gen. Geary at Harrisburg to the "Boys in Blue," in honor of the Radical victory in the State, in which he says:

Radical victory in the State, in which he says:

"It permanently establishes these facts: That the Government of the United States is vested in the American people and in their representatives in Congress assembled, and not in a corrupt Executive. That cruel and revengeful traitors, defeated in battle, shall not be restored to citizenship to roin the country they attempted to destroy. That when our foreiathers declared man capable of self-government they rejected the hereay of human slavery, and piedged equal political rights to all their successors. That hereafter the citizen represented in the State and National Legislatures must be clotthed with the rights of citizenship. That all the agencies of the Government, civil and military, must be perseveringly and stornly exercised to protect, vindicate, and, it need be, avenge our oppressed brothers in the South against the savage persecutions of rebels, who are still so importinent and defiant that even Andrew Johnson fears to pardon them. Having fortified these great truths against all future dangers, it is for us of Pennsylvania to maintain the forward position we have so proudly and gloriously won. The attempt to restore the traitors of the South and to revive the Copperheads of the North has proved to be a galvanism so brief that the failure has consigned both to a deeper depth and to a darker grave than that they occupied before."
